

Regulatory Findings and Remediation Log (Restricted)

Regulatory Context

This restricted log tracks findings raised by external regulators and the resulting remediation commitments.

Finding R-2025-03

A regulator noted that the data processing register was missing two recently introduced processing activities. Remediation: register updated and a quarterly review control introduced. Status: Closed.

Finding R-2025-07

A review of breach handling found that one low-risk incident was logged after the internal one-hour target. Remediation: alerting tuned and staff retrained. Status: In progress.

Overall Status

No fines were levied. All open items have committed remediation dates within the current year.
